

C&O HELPERS IS YOUR SINGLE POINT OF CONTACT FOR ALL MOVING AND TRANSITIONAL NEEDS!

Whether you've been in your home 5 years or 50 years, moving will always presents a variety of significant challenges. We offer the level of support that is right for you; from planning and advising through managing and executing your entire move. C&O Helpers will assist you with as much or as little as you require and our new "a la carte" menu enables you to decide what services you need and when.

Our greatest value, whether we are assisting the senior community or families, lies within our custom planning process. We work closely with our clients, their families and the Communities to form a team. After the initial onsite consult where we discuss your needs, we'll then devise an overall "Move Plan" or "Plan of Action" that includes mapping out of services and providing a timetable for carrying out the plan. Through our extensive experience with senior and family moves, we've developed systems and procedures that streamline the process and eliminate the stressors during relocation.

"Craig Oshrin is a professional of the highest caliber. As an executive in the senior living industry, I relied upon Craig to care for my residents and their families with respect, dignity and white glove service from every point of contact. I personally hired Craig to manage my own move to and from Connecticut with many precious furnishings, art and personal items. From the start of the process with an assessment of what I needed to move, to the supplies I needed, storage and transport; Craig provided me with the best advice to make my moves stress free. I strongly recommend Craig to any individual or their customers."
